# “My space, **my solution.**”

AllTapeSupplies has been a leader in the self-adhesive tape business for more than 25 years. When the time came to decide for the lighting equipment of their new office in Tilburg, the Netherlands, they looked for a solution that reflected the same value that the company brings to its clients: quality performance.

CEO Felipe Muñoz has a clear view on the role that lighting should play in his organization. “With the switch to Philips LED we have reduced maintenance and therefore we achieved far less disruption in our business operations. Our office is a very comfortable and productive working

environment due to the guaranteed flicker free light and the integrated new optics, which meet the office lighting norms.” Muñoz decided to take his own philosophy to heart. “We wanted our own people to benefit from the new lighting, just as we want our customers to benefit from our products.” The lighting saves up to 40% versus the traditional office lighting. This helps us to meet our sustainability goals and underlines our company’s vision.

“**The quality of lighting** makes our day comfortable and productive.”
